Professional Summary

Full-Stack Developer with 7+ years of experience delivering scalable web applications and cloud-based solutions using .NET and modern JavaScript frameworks. Proven ability to build robust APIs, manage cloud infrastructure (Azure/AWS), and lead cross-functional teams in Agile environments. Skilled in both frontend and backend development, with a strong focus on clean architecture, performance, and maintainability.

Core Skills

.NET, C#, TypeScript, JavaScript, React, Next.js, Angular, Node.js, ASP.NET, MVC, WebAPI, SQL Server, MongoDB, Cosmos DB, Azure, AWS, Docker, Git, WCF, Microservices, RabbitMQ, Agile, Team leadership, CI/CD.

Experience

Full-Stack Developer

Qualitara – Client: Milwaukee Tools Jun/2023 – Present

- Built reusable .NET APIs and TypeScript-based Next.js interfaces, managed Azure infrastructure, and mentored junior developers, ensuring adherence to best practices across the SDLC.

. NET Senior Developer

Selehann – Client: iDocket Apr/2022 – Jun/2023

- Oversaw the migration from .NET to .NET Core, designed microservices with WCF and AWS, and shaped architectural decisions to improve performance and code quality.

. NET Senior Developer

The Bridge – Client: Grace Kennedy Financial Group

Feb/2021 – Apr/2022

- Developed APIs and Cosmos DB architecture for fintech solutions involving crypto wallets, contributing to both web (React) and mobile (Flutter) platforms hosted on Azure.
